

Populism2015

BUILDING A MOVEMENT FOR
PEOPLE AND THE PLANET

APRIL 18-20, 2015

Washington D.C. • Omni Shoreham Hotel
populism2015.org • #populism2015

The people's movement that's been brewing around the country is gaining momentum. Politicians and the media are taking notice of its capacity to shake up this country's politics. Now, we want you to be at its center.

Populism2015 will be more than just another conference. It's the next step in the populist people's movement that is working to raise the minimum wage, break up the big banks, stop bad trade deals, stand up to racism, expand – not cut – Social Security, stop global warming, and counter the corruption of our politics.

At Populism2015, we are going to discuss, debate and present a new platform we can stand behind: Building a Movement for People and the Planet.

Jobs for all. Higher wages. A green economy. An end to racial and gender inequality. High-quality education for every child. Economic security. Fair taxation. Peacemaking, not warmongering. Curb Wall Street and big-money politics. This is our agenda. **Join us.**

Friends of the Campaign for America's Future can get a 20 percent discount on registration. Contact Richard Long (rlong@ourfuture.org or 202-587-1626) for details.
